Dear Friend,

Since 2010 the School of Marketing and International Business has acknowledge the importance of our seniors' achievements by celebrating our students who have been selected by the faculty as outstanding students in marketing and international business. Each of the recipients has gone beyond the traditional college experience of taking courses to voluntarily participate in opportunities that truly broaden their education. Selection to the Orange Book honors those graduating OSU marketing and international business seniors who are academically outstanding, demonstrate service to their departments, university and/or community, or are active in extracurricular, academic or professional activities.

Thirty-eight marketing majors, two international business majors, and one marketing and international business double major have been named to this year's Orange Book. The Orange Book that you hold in your hands showcases these outstanding individuals. It is our expression of appreciation for our students' valuable contributions to the campus and to the community during their undergraduate tenure. This year's honorees are student leaders who have positively impacted the organizations with which they are involved and have represented Oklahoma State University and the Spears School of Business very well.

Our program currently has 991 Marketing majors and 177 International Business majors. Selection to the Orange book honors students by recognizing that their excellence reflects positively on the Spears School of Business and Oklahoma State University. We will miss them; we always do, but the OSU family is a tight one – our graduates tend to stay in touch.
