Fall 2019 Academic Calendar

<https://registrar.okstate.edu/content/academic-calendar-fall-2019>

Note: Short courses have unique drop/add and refund deadlines; look up the specific deadlines for these courses on [Short, Internet and Outreach Class Schedules](#) page.

Friday, August 16- Final enrollment date - late fee assessed after this date

Monday, August 19- Class work begins

Monday, August 26- 100% Refund, Nonrestrictive Drop/Add Deadline

Friday, August 30- Partial Refund, Restrictive Drop/Add Deadline

Monday, September 2- University holiday

Tuesday, September 24- Instructors may begin submitting six week grades

Friday, October 25- Students' Fall Break (No Classes)

Friday, November 1- Deadline to file graduation application (for name to appear in the fall commencement program)

Friday, November 8- W Drop/Withdraw Deadline

Monday-Friday, December 2-6- Pre-Finals Week

Friday, December 13- Graduate Commencement

Wednesday, December 18 (noon)- Final grades due by noon electronically from faculty- Grade reports are compiled shortly after the end of the semester and are made available electronically to the student, the student's adviser and the student's dean.

Monday, December 23 - Wednesday, January 1- University Holiday

Spring 2020 Academic Calendar

<https://registrar.okstate.edu/content/academic-calendar-spring-2020>

Note: Short courses have unique drop/add and refund deadlines; look up the specific deadlines for these courses on [Short, Internet and Outreach Class Schedules](#) page.

Friday, January 10- Final enrollment date - late fee assessed after this date

Monday, January 13- Class work begins

Monday, January 20- University holiday

Tuesday, January 21- 100% Refund, Nonrestrictive Drop/Add Deadline

Friday, January 24- Partial Refund, Restrictive Drop/Add Deadline

Monday-Friday, March 16-20- Students' Spring Break

Wednesday, April 1- Deadline to file diploma Application (for name to appear in the spring commencement program)

Friday, April 10- W Drop/Withdraw Deadline

Friday, April 24- W/F Withdraw Deadline

Monday-Friday, April 27-May 1- Pre-Finals Week

Friday, May 1- Class work ends

Monday-Friday, May 4-8- Finals Week

Friday, May 8- Graduate Commencement

Wednesday, May 13 (noon)- Final grades due by noon electronically from faculty - Grade reports are compiled shortly after the end of the semester and are made available electronically to the student, the student's adviser and the student's dean.

Academic Program

The MBA program will be a 36 credit hour program and can be completed in as few as 12 months. The Professional and Online MBA programs do not include the 3 hours of professional development and case competition resulting in a 33 hour program which can be completed in as little as 12 months. MBA students can pursue specializations in the following emerging career [concentrations](#) and may complete concentration coursework as electives for the MBA degree.

Super Core

MGMT 5113 - Management and Organization Theory

Description: Contemporary theories of organization. Structure and dynamics of organizational goals and environments.

Credit Hours: 3

MGMT 5303 - Corporate and Business Strategy

Description: Key issues in formulating and implementing business and corporate strategies. The orientation of top management and diagnosis of what is critical in complex business situations and realistic solutions to strategic and organizational problems.

Credit Hours: 3

MBA 5010 - Ethics

Credit Hours: 1

MBA 5010 - Project Management

Credit Hours: 1

MBA 5010 - Descriptive Analytics

Credit Hours: 1

Functional Core

ACCT 5183 - MBA Financial Reporting

Credit Hours: 3

ECON 5113 - Managerial Economics

Credit Hours: 3

FIN 5013 - Business Finance

Credit Hours: 3

MKTG 5133 - Marketing Management

Credit Hours: 3

MSIS 5303 - Prescriptive Analytics

Credit Hours: 3

Electives

Elective

Credit Hours: 3

Credit Hours: 3

Elective

Credit Hours: 3

Only for Stillwater Full Time Students

MBA 5100 - Professional Development

Description: Career and professional development of MBA students. A blend of guest speakers, projects, and exercises used to better prepare students for advanced business careers.

Credit Hours: 1

MBA 5100 - Professional Development

Description: Career and professional development of MBA students. A blend of guest speakers, projects, and exercises used to better prepare students for advanced business careers.

Credit Hours: 1

MBA 5100 - Case Consulting

Credit Hours: 1

Example Full-time Enrollment Pace for 12-month Plan

Course sequence will vary.

Fall - 14 credit hours

- MGMT 5113
- ACCT 5183
- ECON 5113
- MBA 5100 Professional Development
- MBA 5100 Case Consulting
- (3) MBA 5010

Spring - 16 credit hours

- FIN 5013
- MGMT 5303
- MKTG 5133
- MSIS 5303
- MBA 5100 Professional Development
- Elective course in any business discipline

Summer - 6 credit hours

- Elective courses in any business discipline

Example Full-time Enrollment Pace for 18-month Plan

Course sequence will vary.

Fall - 11 credit hours

- MGMT 5113
- ACCT 5183
- MBA 5100 Professional Development
- MBA 5100 Case Consulting
- (3) MBA 5010

Spring - 10 credit hours

- FIN 5013
- MKTG 5133
- MBA 5100 Professional Development
- Elective course in any business discipline

Summer - 3 credit hours

- Elective course in any business discipline

Fall - 12 credit hours

- MSIS 5303
- ECON 5113
- MGMT 5303
- Elective course in any business discipline

Professional MBA Program

<http://tulsa.okstate.edu/mba>

OSU's Tulsa Professional MBA Program at OSU-Tulsa was created for students with complex work and family schedules. It is designed with flexibility in mind and can be completed at your pace. Pending approval of the Oklahoma State Regents for Higher Education, the Tulsa Professional MBA will require a minimum of 33 credit hours for graduation, which means you could have your OSU MBA in as few as 18 months. Your degree, your schedule.

Course options allow you to adjust your class schedule to fit with your life. Our eight-week hybrid courses blend the convenience of online with limited in-person meetings and networking with Tulsa-area business leaders.

Dual Degree Programs

<https://business.okstate.edu/watson/mba/dual/index.html>

The Spears School offers three dual degree master's programs:

The **Doctor of Osteopathic Medicine-MBA** is a 36-hour program, with 30 hours of the MBA's core coursework in the fall and spring semesters and six elective hours taken in the summer. The DO/MBA is open to students of the College of Osteopathic Medicine with the approval of both the directors of Osteopathic Medicine and the MBA program. The GMAT and business prerequisites are not required.

The **Doctor of Veterinary Medicine-MBA** is a 36-hour program open to students in the OSU Veterinarian Program. The GRE is accepted as part of the admission requirements.

The **UPAEP-MBA dual program** offers students in the U.S. and Mexico an opportunity to study business on an international level. After studying approximately one year at each university, graduates will receive an MBA from OSU and a master's degree in one of the two programs from UPAEP. Advisors from each university will work closely together to ensure that the student takes all the necessary courses to complete degree requirements from each institution.

Accelerated Programs

The **CAS2MBA** option, further described [here](#), enables qualified students from the College of Arts and Sciences to enroll in up to 10 credit hours during their senior year. With appropriate approval in place, these hours can be dually applied towards the MBA and undergraduate degree.

Plan of Study

A Plan of Study serves as a contract between a student and the university; it is a key element in assisting a student in identifying and successfully completing degree requirements. The original online plan of study will be submitted after discussion with the Academic Counselor and must be submitted to the Graduate College before a student enrolls in the seventeenth hour of graduate coursework. The plan of study should include a list of the core courses and planned electives in the intended sequence of enrollment. This plan is flexible and can be changed prior to the semester of graduation. For military students using tuition assistance, an additional Microsoft Word form is available by request.

Changes in the plan of study may be made with the approval of the MBA Assistant Director when the student's interests change or when course scheduling requires such changes. Prior to graduation the student will be required to submit a final plan of study (refer to graduation checklist). A sample of a completed plan of study can be found in the appendix.

Course Rollouts

Many courses within the MBA program are offered continuously throughout the year. Some, however, are only offered in either the fall or spring. The following core course rollout is intended to help students more easily determine their program track.

	Prereq	Class Number	Description	FALL	SPRING	SUMMER	
C o r e		MGMT 5113	Mgmt & Organizational Theory	STW, TUL	DL	Some classes are available in the summer. However, course availability is variable. Please work with your advisor.	
	ACCT&FIN	MGMT 5303	Corporate Strategy	DL	STW, TUL		
		MBA 5010	Ethics		STW, TUL, DL		
		MBA 5010	Descriptive Analytics	STW, TUL, DL			
	ACCT 5183		MBA 5010	Project Management			STW, TUL, DL
			ACCT 5183	Financial Accounting & Analysis	STW, TUL, DL		DL
			FIN 5013	Business Finance	STW		TUL, DL
			ECON 5113	Managerial Economics	STW, DL		TUL
			MKTG 5133	Marketing Management	STW, DL		STW, TUL
		MSIS 5303	Prescriptive Analytics	TUL, DL	STW, DL		
	MBA 5100	Professional Development FT only					
STW	STW						

Note: This class schedule is expected to be maintained on an annual basis, regardless of year. However, there is a small possibility that these classes could change without prior notice. If a change occurs, the MBA program will do everything in its power to ensure a suitable replacement is added. Please work with your advisor regarding changes in course offerings and adjustments in your plan of study.

Enrollment Requirements

Students are required to be enrolled in at least two credit hours each semester in which they are using physical or faculty resources of the University (students holding graduate assistantships should note that additional requirements apply). Regardless of the number of hours taken, a student may not count more than 16 credit hours taken in the fall or spring semester toward a degree. During the summer session, a student may not count more than nine credit hours taken in any session during the eight-week summer session toward a degree. No more than three credit hours taken during the first summer session (intercession) may count toward a degree. Summer intercession is defined as any course that begins after the end of the spring semester and ends prior to the beginning of the eight-week summer session. For any short course session less than eight weeks in length, enrollment shall not exceed one credit hour for each week.

**International students on F-1 or J-1 visas must maintain full-time status during the first semester of enrollment, and during each fall and spring semester thereafter.*

Creative Component

The creative component of the MBA program (MGMT 5303 Corporate Strategy) is intended to serve as a capstone strategy course. Largely case and consulting based, it provides a bridge between the academic and real worlds. It is designed to integrate the core curriculum and concepts taught within the program, allowing students to learn through applied projects and high level simulation.

Time Limit for Degree Completion

Per *OSU Catalog*: Students are expected to complete the requirements for a certificate, master's, or specialist degree within seven years from first enrollment after admission to the program. After that time a student must submit a written petition to the Graduate College requesting an extension of time to degree completion. Credit for all courses on a graduate plan of study must have been awarded within ten years of completion of all degree requirements. Any exception to these time limits must be approved by the dean of the Graduate College.

Academic Standards

MBA Program Academic Standards

The MBA program standards require a higher level of performance from students than those of the Graduate College. Students must maintain a minimum grade point average of 3.0 (“B”) to remain in good academic standing. Only courses that apply to the MBA degree requirements are considered in the computation of this grade point average. The following academic sanctions may occur if a student does not meet satisfactory academic progress:

Academic Probation: MBA students will be placed on academic probation following their second “C” grade. Students will be dismissed from the program upon receiving any “C” grade thereafter, even if the C grade is received in the semester of graduation.

Academic Dismissal: If a student’s performance is determined unsatisfactory by the MBA Graduate Studies Committee, they may be dropped from further study in the MBA program. In addition to unacceptable academic performance, academic dishonesty and academic misconduct are considered to be unsatisfactory performance.

Any student earning a grade of "D" or lower (whether currently on strict academic probation or not) will automatically be dismissed from the MBA program.

Dismissed students are permitted to submit a written request for reinstatement with an explanation of why they should be reinstated to the MBA Graduate Studies Committee. Permission to continue in the program will be granted only if the Committee believes extenuating circumstances resulted in the low grades.

Should the student be readmitted for study in the MBA program, the student will be required to retake at the earliest offering any course in which a "D" or "F" was earned. Students removed on the basis of the “3 Cs policy” may be required to repeat one or more of the classes in which a C was earned. Readmission would be only under the conditions of strict academic probation. The Graduate Studies Committee may attach additional requirements to the readmission.

OSU Graduate College Academic Standards

The Graduate College requires that students maintain a minimum grade-point average of “B” (3.00), as well as (1) maintain good standing as a graduate student and (2) meet requirements for a degree. In determining whether a student has met minimum requirements for a degree, grades for courses on the plan of study are averaged separately from courses not on the plan of study. Students must maintain a cumulative GPA of at least 3.00 in order to continue enrollment in the Graduate College. Additionally, in order to receive a degree, students must have a minimum 3.00 GPA in the course work listed on the plan of study.

The dean of the Graduate College reviews the academic progress of any graduate

student who receives a grade of “C” or lower in a class. No course with a grade below “C” can be used as part of the minimum number of semester credit hours required for the degree. The dean recommends one of four actions based on the student’s current semester performance and past academic history.

1. Departmental Notice: the department is notified and is encouraged to review the student’s performance to determine if any departmental intervention is needed.
2. Academic Probation: any student whose overall GPA drops below a 3.00 or who receives more than two grades below “B” is subject to being placed on academic probation. Students placed on academic probation must earn a minimum grade of “B” in each course during the next semester of full-time enrollment or two semesters of part-time enrollment.
3. No Further Enrollment Without Departmental Consent (NFEWDC) occurs if:
 - a. If the student was admitted on academic probation and did not meet the requirements of the admission.
 - b. If the student was on academic probation the previous semester, or
 - c. If the dean believes the student’s overall academic performance warrants departmental intervention, then the student is not permitted to enroll further without the consent of the department. To continue in the program, the student must submit a written petition to the Graduate College requesting reinstatement and outlining a plan to remedy the academic situation. This petition must be accompanied by a letter of support from the department head or graduate coordinator. Failure to submit such a reinstatement petition could result in the canceling of pre-enrollment for the upcoming semester.
4. No Further Enrollment (NFE) results when any student has consistently performed below the acceptable standards for graduate students. The student is not permitted to continue graduate study at OSU.

Petitions

All student petitions (readmission, course substitutions, transfer courses, etc.) must be submitted to the MBA Program Manager for approval by MBA Graduate Studies Committee by specified deadlines or prior to the semester in which the students wishes to take petitioned course.

University Academic Integrity Policy

Oklahoma State University is committed to instilling and upholding integrity as a core value. All members of the Oklahoma State University community are entrusted with academic integrity, which encompasses the fundamental values of honesty, trust, respect, fairness, and responsibility. Therefore, students, instructors and members of the Academic Integrity Panel are expected to demonstrate academic integrity through the following actions.

The highest level of ethical behavior and integrity will be maintained in all classes. Participating in a behavior that violates academic integrity (e.g., unauthorized collaboration, plagiarism, multiple submissions, cheating on examinations, fabricating information, helping another person cheat, unauthorized advance access to examinations, altering or destroying the work of others, and fraudulently altering academic records) will result in your being sanctioned. Violations may subject you to disciplinary action including the following: receiving a failing grade on an assignment, examination or course, receiving a notation of a violation of academic integrity on your transcript (F!), and being suspended from the University. You have the right to appeal the charge. Contact the Office of Academic Affairs, 101 Whitehurst, 405-744-5627.

The complete policy can be found at: <http://academicintegrity.okstate.edu/>

Transfer Credits

Transfer credits are approved through the OSU Graduate College and the MBA Graduate Studies Committee. Transfer of graduate credits to the Graduate College is possible only when the student was formally admitted to the graduate college at another accredited institution and the course(s) was certified as graduate credit by that institution. The transfer work must be recommended by the advisory committee as a part of an approved plan of study. The acceptance of transferred work requires the recommendation of the student's advisory committee and approval by the dean of the Graduate College at the time a plan of study is submitted. A maximum of nine credit hours with a grade of "B" or better in each course can be accepted as transfer credits toward a master's degree.

Approval from the MBA Graduate Studies Committee is obtained through the normal petition process. Courses must be from an institution that is an accredited member of the Association to Advance Collegiate Schools of Business (AACSB). Upon completion of the transfer course work, the student is required to provide the Watson Graduate School of Management Office with an official copy of the transcript covering the transfer course(s).

Withdrawing

Withdrawing from the University

Withdrawing refers to withdrawing from all courses for which a student is enrolled for a given semester. Initiated in the student's dean's office, the request for withdrawal can be submitted via mail fax to the student's dean's office if the student is unable to appear in person. Any student who withdraws prior to the end of the twelfth week of a regular semester or the sixth week of a summer session, or proportionate periods for block or short courses, will receive a grade of "W" (withdrawn) on the student's academic record. A student who withdraws after the 12th week of a regular semester or the sixth week of a summer session but prior to "Pre-finals Week," will receive a grade of "W" (withdrawn) or "F" (failing) as assigned by the instructor of each course. The grade of "W" or "F" will be recorded on the student's academic record and the grade of "F" will be calculated in the grade-point average. After the beginning of "Pre-finals Week" a student may not withdraw from the University and will be assigned only the grade of "A," "B," "C," "D," or "F" or (when appropriate) "I," "NP," "P," "S," "U," or "R" by the instructor of each course at the end of the semester or summer session.

International students must consult with the Office of International Students and Scholars (ISS) before withdrawing for the semester. Under new reporting regulations required by the Student and Exchange Visitor Information System (SEVIS), withdrawing for the semester can put a student's visa status in jeopardy.

Military students Pursuant to SB 1830: The Oklahoma Student Veteran Leave of Absence Act of 2014, Oklahoma State University shall grant a Military Leave of Absence (MLOA) not to exceed a cumulative five years to a student who is a member of the active uniformed military services of the United States and is called to active duty. In summary, the act states that the student shall be eligible to:

1. Withdraw from and receive a refund for any or all classes for the period of active duty service without penalty to admission status or GPA and without loss of institutional financial aid; or
2. Receive an incomplete grade for any or all classes for the period of active duty status; provided that the student has completed a minimum of 50% of all class work prior to being called to active duty and the student completes all classes upon returning from active duty. The student's admission status and GPA shall not be penalized, and the student shall experience no loss of institutional financial aid.

To pursue a Military Leave of Absence/Withdrawal, please fill out the MLOA form <https://registrar.okstate.edu/sites/default/files/Documents/Forms/EnrollmentForms/mloa.pdf> and contact the Watson Graduate School of Management office for further assistance.

Withdrawing from the MBA Program

Students who wish to withdraw from the MBA program, but not the university, must notify the program office to do so.

Graduate College Leave of Absence

<http://gradcollege.okstate.edu/leave-of-absence-policy>

Oklahoma State University (OSU) graduate students are expected to maintain active status through continuous enrollment from the time they matriculate until they graduate. Students who are not able to maintain active status are strongly encouraged to consult with their program, advisor, and Graduate College to determine whether requesting a leave of absence (LOA) is the most appropriate course of action. International students must consult with the International Students and Scholars (ISS) office to ensure compliance with Federal immigration policy. Example situations that may lead a student to explore a leave of absence request are medical, personal, employment and military service. Students who do not have an approved leave of absence and are not continuously enrolled may experience negative consequences related to academic, visa, financial aid, and other student issues – see University policies and guidelines for additional information. A student status of “good standing” (academic and conduct) is generally required for a leave of absence.

Graduate Assistantships

Graduate Assistantships are granted to students enrolled on campus in the full-time traditional track on a competitive basis with regard to undergraduate grade point average, competitive GMAT score, letters of recommendation, and other factors such as previous work experience and relevant skills. For students who are already in the MBA program, academic performance and leadership in the program will be taken into consideration. Assistantships are usually awarded for the academic year and graduate assistants will be evaluated at the end of the academic year. Students with assistantships should be enrolled in at least 9-credit hours each semester that they have an assistantship and no student will have an assistantship for more than three semesters.

Duties and responsibilities

Graduate assistants are expected to perform all duties required by the assigned professor(s).

Requirements

Students are expected to remain in good academic standing and will be required to relinquish an assistantship under any of the following circumstances:

1. Must be a fulltime student enrolled in 9 hours plus 1-credit hour Professional Development (PD) (total 10 hours), except during the graduating semester, in which 6 hours plus 1-credit hour PD is permitted.
2. Maintain a minimum overall GPA of 3.3 every semester while retaining the assistantship. If a C grade or lower is earned, the program reserves the right to rescind the assistantship.
3. No academic integrity violations. Academic integrity violations will result in automatic loss of assistantship.

If dismissed from program, but granted reinstatement for further enrollment, the GTA will not be restored. Being awarded a Graduate Assistantship is a privilege. Commitments will be honored as long as resources permit and the student meets progress expectations toward completion of degree requirements and fulfilling duties to assigned professor(s).

International Students GTA/GRA Award Provisions

There are specific requirements that must be met in order for a non-native English speaking student to be considered eligible for a Graduate Teaching Assistantship (GTA) or Graduate Research Assistantship (GRA) appointment. Students should keep in mind that meeting these requirements does not automatically award them a GTA or GRA, but it makes them eligible to be considered for one.

This relates directly to the “speaking” portion of the TOEFL or IELTS tests. A student may be required to pass the ITA (International Teaching Assistant) test.

Requirements:

- Score of 26 or higher on the speaking section of the TOEFL iBT (or 8.5 or higher on the speaking portion of the IELTS). The ITA test is not required.
- Score of 22, 23, or 24 on the speaking section of the TOEFL iBT (or score of 7.0, 7.5, or 8.0 on the speaking portion of the IELTS) AND score 250 or higher on the ITA test. Students scoring from 240 to 249 on the ITA test are required to enroll concurrently in GRAD 5991 in order to engage in instructional duties.
- Students with a score below 22 on the speaking section of the TOEFL iBT (or below 7.0 on the speaking portion of the IELTS) are advised to seek English language training. A score of 68 or higher will qualify the student for the ITA exam. Students who receive ITA scores of 250 or higher are cleared for instructional duties. Students scoring from 240 to 249 on the ITA test are required to enroll concurrently in GRAD 5991 in order to engage in instructional duties.

Information about the ITA Exam

- The ITA is administered at OSU’s University Assessment and Testing (UTA) services.
- The ITA test is a **five minute** (timed) teaching presentation given to an audience of test raters and other students who are taking the test. After the presentation is finished, there is a 3-5 minute period for questions from the audience.
- The ITA is given in August and January, immediately prior to the beginning of the fall and spring semesters, respectively.
- The University Testing and Assessment website is <http://uat.okstate.edu/>. Please visit that site for details about the tests and registration procedures.

Graduate Assistant Health Insurance

OSU offers subsidized health insurance coverage for graduate assistants during the school year and throughout the summer months. Graduate assistants automatically receive this coverage as long as they are working .50/FTE (20 hours per week) and are enrolled in six or more graduate credit hours in the spring and fall, or three hours during the summer. Students may decline coverage, should they choose to do so.

[United Health Care](#) is the primary provider for this coverage. Students covered by this plan are encouraged to seek medical care at OSU Health Services whenever possible.

The plan is administered by OSU Human Resources, and information can be found at <https://hr.okstate.edu/student-health-plan-2019-2020>

Case Competitions

Case studies and competitions are an integral part of the MBA program. This approach to learning allows students to gain hands-on experience in problem solving and consulting, enhance their presentation abilities, hone their leadership and team skills, and gain constructive feedback from experienced judges. All full-time MBA students are required to participate in internal case competition. From that competition, three teams will go to present at Executive Interaction. The purpose of the case competition and Executive Interaction is to maximize the learning objectives of the case study method.

Each year, four students who are particularly successful in the Executive Interaction round are invited to join the travel case competition team. This team enjoys sponsored travel to several competitions annually and has the opportunity to gain immense real-world experience.

Study Abroad Opportunities

MBA students are encouraged to participate in the Study Abroad and Travel programs. International travel broadens a student's knowledge of the world around them and the global economy. They gain first-hand knowledge of different cultures and methods of business, gain business contacts for future internships and employments, and enhance their skill-sets with diverse experiences. Students travel to locations around the world, visiting companies and cultural sites, meeting with local officials and business leaders, as well as sightseeing. Study abroad opportunities are not limited to those offered through the Spears School of Business and students are encouraged to work with their academic advisor in how study abroad opportunities can fit into their curriculum requirements.

Graduation Process

Each degree-seeking graduate student must be enrolled in at least two hours of course eligible for graduate credit during the graduating semester (defined as the semester in which they satisfactorily complete all degree requirements).

International students are required to be enrolled in an on campus class the semester of graduation and this applies to summer classes too.

Filing for Graduation

Students are required to submit the following information within the first month of the semester of intended graduation. Completion of the following is ultimately the responsibility of the student.

1. A *revised Plan of Study* must be submitted to <http://planofstudy.okstate.edu> and the Program office must be notified by email for approval by the Committee and Department. The final plan of study should reflect all classes successfully completed for degree requirements. Once approved by the Committee and Department, the plan will be forwarded to the Graduate College.
2. A *Graduation Clearance form* should be filed by the student at the same time the Final Plan of study is submitted.
3. A *diploma application* should be filed with the Registrar's once the Graduate College has approved the revised plan of study and Graduation Clearance Form. Instructions for filing your diploma application can be found at: <https://commencement.okstate.edu/>.

In addition to the above requirements, international students must also file a final semester verification form with the Office of International Students and Scholars. (The form is included in the OPT forms packet.)

Career Planning

Career assistance is provided as a collaborative effort between the Watson Graduate School of Management and OSU Career Services, including support for developing a winning resume to negotiating job offers.

Transitioning from a student to a professional takes effort and there are no guarantees. While the number one method for finding a job is utilization of a personal network, we work to organize and prepare numerous resources for students to explore career options, develop networks and navigate a course to career success.

Services offered

- Career assessment
- Correspondence development
- Strategy development
- Resume development/critique

- Job positions
- Resume referral to employers

Resources

- HIREOSUGRADS.com
- H1 Base
- Career Shift

Career Building

Professional Development: A one-credit hour Professional Development Course, required of all full-time students, includes case competitions, resume development, networking tutorials and a Distinguished Speaker Series. The course is offered each semester and is geared toward creating well-rounded professionals, by providing students exposure to real world business environments and opportunities.

Speakers: An array of speakers is selected each year to address the SSB graduate student groups. Speakers include experts in dining etiquette, nationally known presentation and leadership coaches as well as a variety of other topics. In addition, MBA students have access to many programs hosted by the SSB Center for Professional and Executive Development at no personal cost.

Networking events: Held to assist students with the difficult task of building a personal and professional network, networking events are hosted in Stillwater, Tulsa and Oklahoma City. Such events allow students to connect with program alumni and potential employers in a relaxed atmosphere.

National Conferences: When possible, students are given the opportunity to apply for sponsorship to attend selected national conferences, case competitions and job fairs. Included are conferences by the National Association of Women MBAs, the National Society of Hispanic MBAs, the National Black MBA Alliance, the Texas Investment Forum, CiscoLive, among others. Notice to apply for selection occurs each semester.

Periodical Subscriptions: Most successful CEOs make a habit of reading professional journals to stay abreast of news/information relevant to their company. Therefore, the Spears School supplies *Wall Street Journal* subscriptions to full and part time students enrolled at the Stillwater and Tulsa campuses.

MBA Association

Students admitted to the OSU MBA program are automatically eligible to become members of the MBA Association and are encouraged to participate in its activities. The organization, like the MBA program, is composed of students from various backgrounds, each with relevant contributions to make. One of the aims of the Association is to establish a closer bond among MBA students through informal meetings, networking activities and community involvement.

The activities of the organization are social, professional and philanthropic. The Association sponsors guest speakers from industry and government to bring real world perspective and networking opportunities to the students. The Association also sponsors various intramural sports teams, socials and group events for the MBA students. A major goal of the Association is to elicit community involvement within the MBA program. This not only serves a philanthropic purpose and sheds positive light on the program, but also helps students become well rounded and build their resumes.

The primary benefits of the Association are: building stronger relationships with classmates, networking with industry professionals and alumni, and involvement within the program and community. Students are strongly encouraged to become actively involved within the association. Those interested in more information or leadership roles should inquire within the Watson Graduate School of Management Office.

Professional Conduct and Ethical behavior:

In today's global business environment, more and more companies are setting strong standards for professional conduct and ethical behavior. In keeping with these standards, the Master of Business Administration (MBA) program in the Watson Graduate School of Management (WGSM) has an expected standard of professionalism and ethical behavior that all admitted and prospective students must meet. Stillwater, Tulsa and Distance Learning students are responsible for their behavior from the time they submit their application to the MBA program until completion of degree requirements. All students must exhibit professional, courteous and respectful behavior towards colleagues, faculty, and University staff during their time in the program. Additionally, all students are expected to adhere to the educational goals and regulations established by Oklahoma State University, the OSU Graduate College and those policies and guidelines found in the [OSU Student Code of Conduct](#). In addition to these program standards, students may face denial of admission to the program or program dismissal for unprofessional or unethical behavior as well as for violation of the Academic Integrity policy and/or Student Code of Conduct. It is the student's responsibility to familiarize themselves with these University policies.

Students are expected to conduct themselves in a professional, ethical and mature manner at all times, but especially in the following situations:

- All on-campus or off-campus sanctioned events sponsored by the Program. This would include, but not be limited to, orientation, honors and awards banquets, alumni or company networking events.
- Any on-campus or off-campus event where the student is representing Oklahoma State University or the OSU MBA program. This would include, but not be limited to, company visits, study abroad, case competition and travel to conferences.
- Graduate Assistantships: Students holding assistantship positions are expected to conduct themselves in a professional and ethical manner at all times.
- Classrooms and labs: Responsible use of university computers, printers or other equipment. Protect and help maintain the appearance of classrooms, buildings and other University facilities.
- Students should refrain from cellphone use during class, responsible use of laptops with consent of instructor. Students must refrain from answering email, surfing the web and use any other electronic device that disrupts the classroom environment.
- Students are expected to help foster a positive and open learning environment. Any form of discrimination, harassment, irresponsible or damaging communication through technologies such as social media, email or texting will not be tolerated.
- Internships: Students are expected to maintain the utmost professional and ethical behavior during their internships.

Our goal is to produce future business leaders who will be recognized for their professionalism, ethical decision-making, integrity and leadership.

Appendix

Definitions

Concentration: A concentration is directly connected to enrollment in MBA program. A concentration shows a skill set in a specific area and is noted on the student's transcript but not on the diploma. Concentration courses are taken in addition to the required core courses for your degree. A student can use the courses needed to complete a concentration as the electives required for the MBA degree. All concentrations are taken in conjunction with the required core courses.

Certificate Program: A certificate is not necessarily connected to the MBA degree. Certificates can also be earned as a standalone program and are available to all students at Oklahoma State University.

If a fully admitted MBA student wishes to pursue a given concentration or certificate it may require that they take classes beyond the minimum requirements for the MBA program.

CONCENTRATIONS

For the current list of concentrations, please review <https://business.okstate.edu/watson/mba/full-time/concentrations/index.html>

MBA with Accounting Concentration

Requirements for the Accounting Concentration will be determined after consultation with the School of Accounting by the MBA academic adviser.
