BUILDING TOURS
Meet in the Keystone Commons before discovering the new building with help from the Business Student Council
This is a historic day on the Oklahoma State University campus! We are thrilled to dedicate this fantastic building that will greatly enhance our preparation of tomorrow’s business leaders.

There are many people to thank for making this building possible, beginning with our generous donors. We also thank all those involved in the construction, Dean Ken Eastman and his team, and many others.

A special thanks goes to OSU architecture alumnus Rand Elliott and his team for designing this remarkable facility. Rand has received numerous awards and honors for his work across the United States and globally, but, in my opinion, this building is his finest accomplishment.

As an OSU business school graduate, it is a distinct honor for me to help dedicate this beautiful new building. We can all take great satisfaction in knowing this iconic facility will make a lasting impact on business students today and tomorrow.

Thank you for your continued support.

Go Pokes!

Burns Hargis
PRESIDENT | OKLAHOMA STATE UNIVERSITY
Thank you for being with us on this major milestone in the life of the Spears School of Business. Our new home is a place of pride and of opportunity.

We owe a great debt to everyone who made this dream a reality. Thank you to all of the donors whose financial support was vital to the building’s construction. Our OSU Foundation team, led by Diane Crane, did a wonderful job of connecting donor passions to this building project. A giant thank-you to Lisa Fain, our director of operations, who was our point person and put in countless extra hours during the construction.

To our entire team — faculty and staff, Elliott + Associates, Manhattan Construction (especially Chad Kendrick and Michael Lake), OSU Long Range Facilities Planning (especially Jay Cheves) – thank you for making this a great project.

We move forward from this date, confident that we are equipped to meet the business education, research and outreach needs of tomorrow’s leaders.

Come on in – we’re open for business!

Ken Eastman
