May Progress Report

June 1, 2015

Monthly Overview

- Progress Continues on the Morrill Street Utilities.
- Set Morrill Ave Electrical Vault
- Demo of Stacks.
- Advertise Bid Package II.
- Coordination with OSU on Trailer Compound and Sub-contractor Parking Locations
- Tied Into 18” Existing Chill Water Lines
- Moving of Construction Fence to Permanent Location

Monthly Progress Report

As construction continues, Manhattan will issue monthly progress reports throughout the construction process. Typically, these reports are generated and transmitted on the last day of each month. These reports are meant to serve as a tool for OSU Long Range Facilities Planning to document production and keep interested parties updated with progress who may not otherwise be involved on a daily basis.

PROGRESS REPORT: During abnormal amount of rain this month activities continued on the dry days. The demo of the stacks is near completion. The shutdown of the 18” chilled water lines was a success with no interruption of campus events. Coordination continues for the Morrill Street Utilities Project. Activities this month are all in preparation of starting excavation next month.

Manhattan is proud to partner with OSU Long Range Facilities Planning, Spears School of Business, and Elliot and Associates on this project.
