**BOOTCAMP MODULES**

**BOOTCAMP BASICS:** “The First 100 Days” focuses on tasks a business owner must complete in the first 100 days of launching a business. After raising seed capital and writing a business plan, what do you do? The answers vary depending on the business, but there are a set of key activities that all businesses must accomplish to get off to a good start.

**ALL ABOUT THE NUMBERS:** From the basics of managerial accounting to financial accounting, this session will help you understand why accounting is the language of business.

**UNDERSTANDING YOUR CUSTOMER:** Markets and marketing, doing more while spending less, entrepreneurial approaches to marketing decisions — all of these topics will be covered to help you understand how your customers drive your business.

**RUNNING YOUR BUSINESS:** Being a successful entrepreneur is more than hard work and a good idea — it involves knowing how to operate your business effectively, from sound management principles to a solid legal foundation.

Modules will also feature guest entrepreneurs and industry expert panels to share their expertise and help answer specific questions about your business.

**THE RIATA CENTER MISSION**

The Riata Center for Entrepreneurship serves as the outreach arm for the School of Entrepreneurship in OSU’s Spears School of Business. We strive for intellectual engagement with our world — people, communities, businesses — through our entrepreneurial projects, programs and research.
